

COVID TESTING

WHERE TO GET A RAPID ANTIGEN TEST (RAPID TEST) IN BANFF

To travel back home into most countries, including the United States and the United Kingdom, rapid antigen tests (or rapid tests) are required. In Banff, there are a number of local pharmacies and clinics offering rapid tests for travellers flying home from their holiday. For international visitors, and Canadian residents, these rapid tests cost a fee.

Most rapid test results are delivered within 15 minutes to 24 hours of testing, but timing and price can vary depending on how quickly you want your results. Make sure you book your rapid test appointment early to get tested before you depart.
